

PROVEN SYSTEM. UNMATCHED SUPPORT.

With over 10 years of operational experience, the Artemis UAS is the only combat-proven system that meets the RCAF's demanding operational requirements for RPAS. In addition, Team Artemis includes the unmatched in-country support of L3Harris Technologies, Canada's premier aircraft in-service support (ISS) provider.

With decades of ISS experience, combined with L3Harris' large Canadian footprint, domestic reputation and established partnerships, Team Artemis will deliver to Canada and the RCAF the best RPAS solution and support for the life cycle of the program.

Canadians deserve nothing less!
